PROFESSIONAL PROFILE

Junior Full-Stack developer with hands-on training in React, TypeScript, JavaScript, Python, Node.js and APIs. I combine web development, technical support and customer service to build clear, accessible and reliable solutions.

SELECTED PROJECTS

Nova Music Lab
React 19 - TypeScript - Vite - Tailwind CSS
Private, local analysis of multi-platform listening histories with statistics, sessions, trends and a narrative report.

NovaFit
Python - SQLite - Tkinter - Requests - Faker
Team-built local hackathon tracker for steps, water, calories and mood, with both CLI and GUI interfaces.

Fullstack2026
Python - JavaScript - TypeScript - DOM
Learning log with programming, DOM, asynchronous JavaScript and TypeScript exercises and mini projects.

EXPERIENCE

Independent Computer Technician & Technical Support
Venezuela / Israel - dates not specified
Hardware and software diagnosis, Windows and driver installation, peripheral setup and clear guidance for users.

Elderly Caregiver
Matan Nursing Services - Beersheba
Daily assistance, organization, punctuality and empathetic communication.

Operations & Service Assignments
Yarin Manpower - 05/2022 to 01/2023
Daily operations support, workplace organization and teamwork.

Additional Service & Technology Experience
Isrotel, Aroma Israel and JP TECNO - 2017 to 2019
Customer service, hospitality, technology sales and computer repair.
